

OFFERING A COMPLETE LINE OF LIFT CRANES AND AIR COMPRESSORS TO THE SERVICE INDUSTRY.

# TIGER CRANES

## T6000H & T6000EH

The **TIGER T6000 ELECTRO-HYDRAULIC** and **HYDRAULIC** cranes are the most versatile of the **TIGER** crane line. The T6000 cranes are a natural choice for field service applications, because they can be mounted on trucks with a GVW as small as 14,500 lbs., yet easily handle 6000 lb. loads all day long.

The **TIGER T6000** cranes feature boom elevation from  $-5^{\circ}$  to  $+75^{\circ}$ , limited continuous rotation, standard overload protection, and a reach to 18 ft., making them adaptable enough to tackle your most awkward jobs.

The T6000EH incorporates a 12 V DC hydraulic power unit to perform lift, extend and rotation functions, and an electric winch for hoisting duties. The T6000H is a fully hydraulic crane, using hydraulic power supplied by the vehicle to operate the lift, extend, rotation, and winch functions. The T6000H is available with proportional control.

Both cranes are available with an anti-two-block preventer and an optional length manual jib.

### TIGER Model T6000H & T6000EH Specifications

Crane Rating ft/lbs./(Kg/M)	31,000 (4,286)
Lifting Capacity lbs./(kg)	6,000 (2,727)
Lifting Height (from base) in./(cm)	216 (549)
Storage Height (from base) in./(cm)	39 (99)
Rotation (limited continuous)	360°
Winch Cable	5/16 in. x 70 ft.
Weight lbs./(kg)	1,480 (660)
Mounting Space in./(cm)	16.6 x 16.6 (42 x 42)
Outrigger Recommendation	OR-1 or OR-2 Heavy Duty or Equivalent
Controls:	Detachable Remote 25 ft. of Control Cable

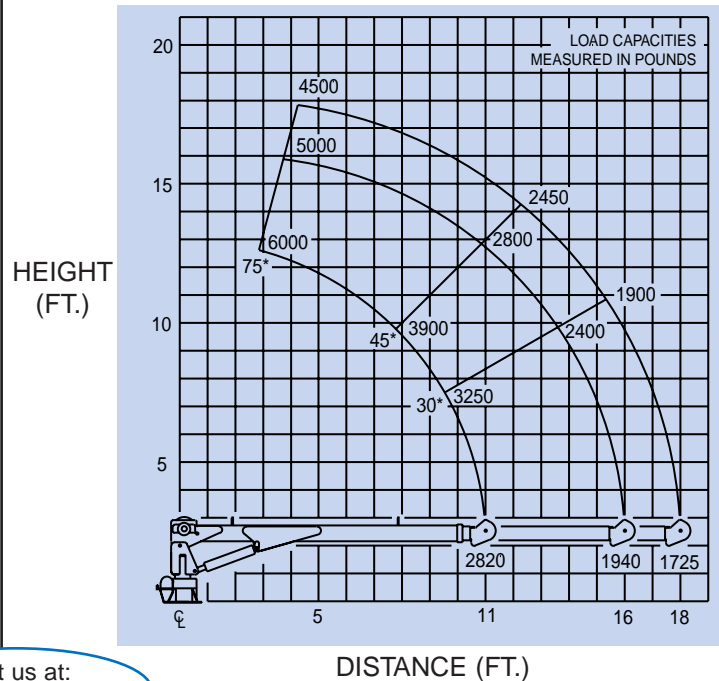

#### MINIMUM CHASSIS REQUIREMENTS

GVW RATING	14,500 lbs	5,000 Kg	HYD PUMP	6 GPM @ 2500 PSI
ALTERNATOR	60 Amp		BATTERY (Cold Crank)	700
WHEEL BASE	133 in	152 cm	BATTERY	200 Minute Reserve
CAB TO AXLE	60 in	152 cm		

Meets ANSI Requirements

**TIGER CRANES ARE NOT INTENDED TO BE USED IN THE LIFTING OR MOVING OF PERSONS.**
